WG – NGO/DPO Collaborations

Tools developed by the WG have been championed by DPOs and NGOs internationally - in particular IDA, IDDC, Sightsavers, CBM, HI and others.

Examples:

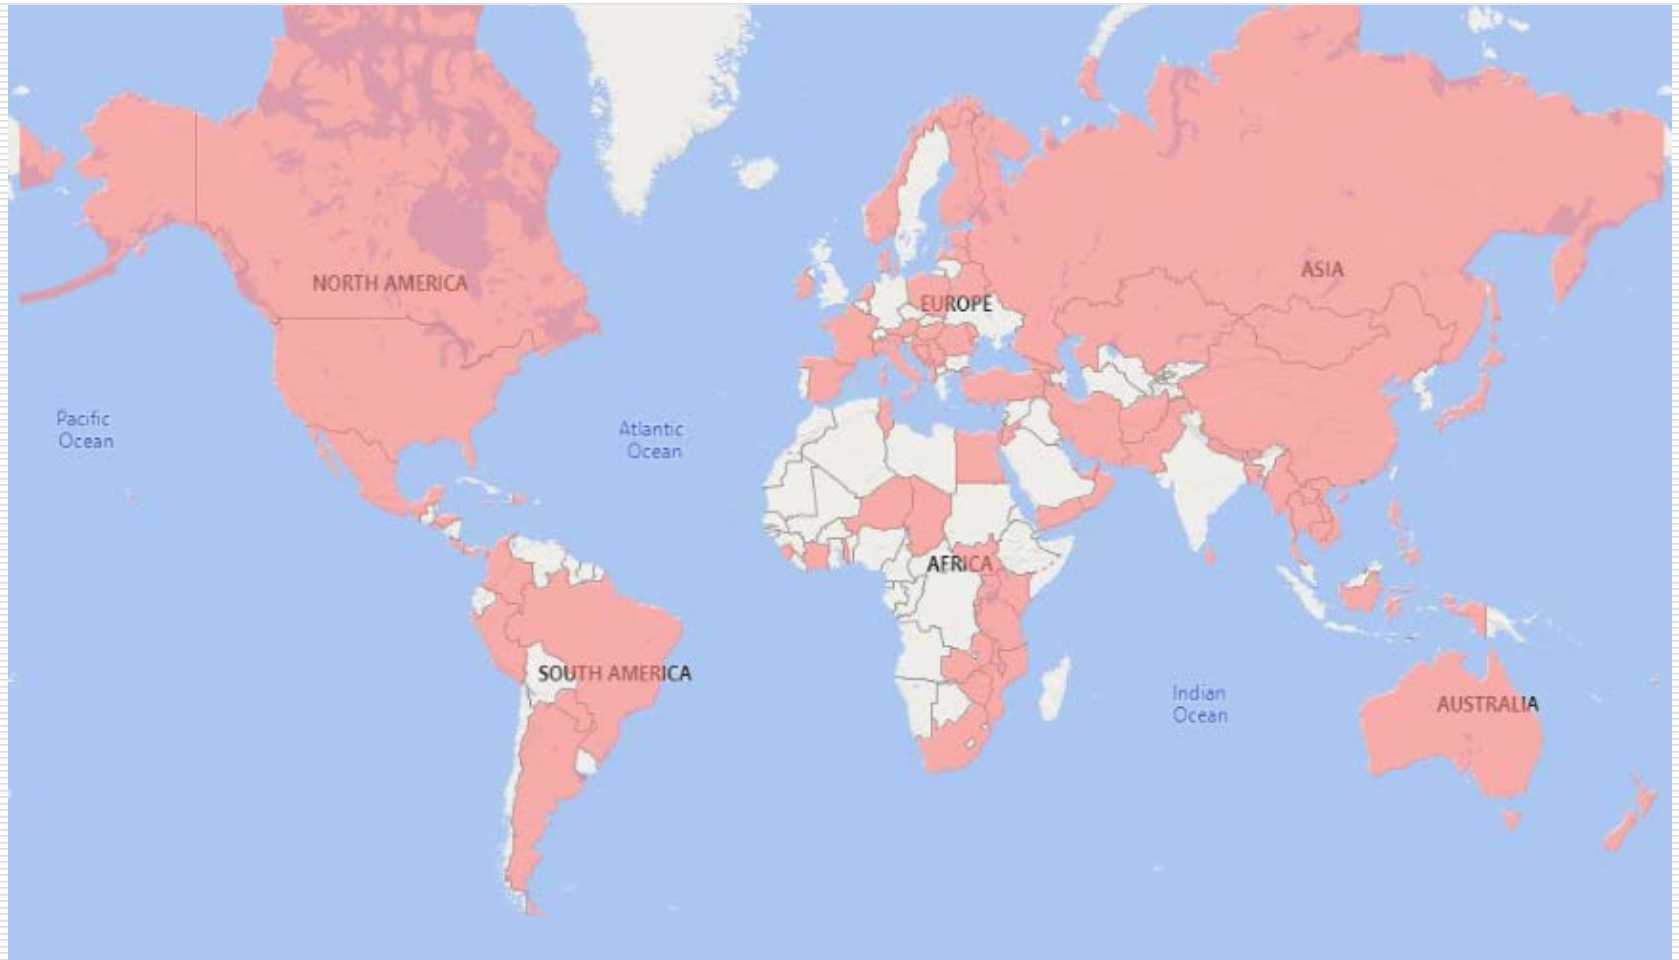

- Sightsavers:
 - Blog contribution: The Washington Group Questions In Action: Six Lessons Sightsavers Has Learned So Far...
- Humanity and Inclusion (HI):
 - Developed e-learning modules on use of the WG-SS,
 - Assisted in initial testing of the CFM for Teachers,
 - Blog contribution: Learning from the Use of the Washington Group Questions in Development and Humanitarian Programs

Adoption of the WG-SS:

The WG-SS

- has been used in censuses or surveys in over 75 countries,
- has been promoted by international aid programs (DFID/UK and DFAT/Australia) as the means to collect disability data in all programs and projects, and
- has been introduced as the means for collecting disability data by the UN Statistical Division (UNSD) and the UN Economic Commission for Europe for the 2020 round of censuses.

Where in the world is the WG-SS?

Source: Based on information obtained from 2009-2018 WG Country Reports (n=95).

Adoption of the WG-SS:

UNICEF:

- deployment of the Child Functioning Module (CFM) and WG SS in the **Multiple Indicator Cluster Surveys** (MICS)

US AID:

- development of a disability module to include the WG SS in the **Demographic and Health Surveys** (DHS)

World Bank:

- scaling up the inclusion of the WG-SS into future WB-sponsored household surveys, including the **Living Standards Measurement Study** (LSMS)

WG: An International Presence

Global Disability Summit (Buenos Aires, Argentina)

WG Events at the Summit

- Civil Society side event on 6 June: presented the work of the Washington Group: History of Disability Measurement and Data Production and Analysis using the WG tools. Approximately 50 participants attended the event.
- June 7, plenary session – presented the UNICEF/WG Child Functioning Module. Session attended by approximately about 150 participants.
