未来方向

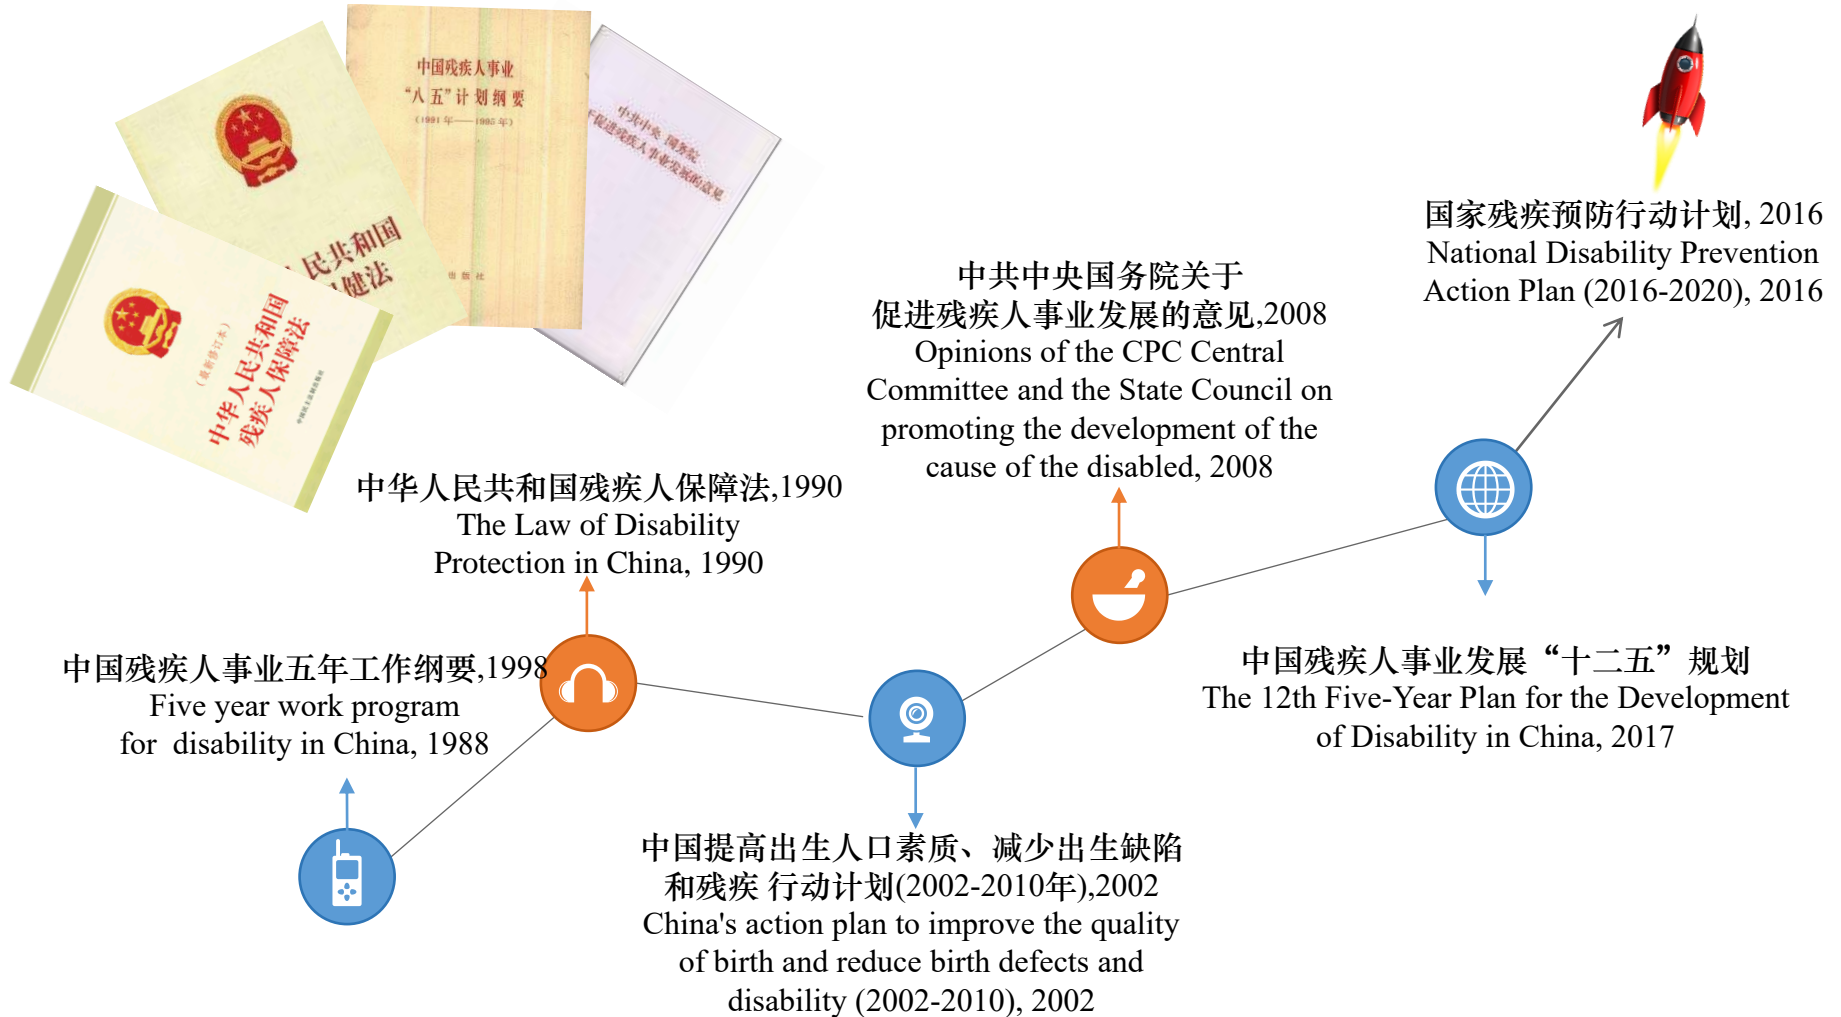

Future direction

Disability Policies in China

中国残疾政策的重要变革

Important disability policies in China

中国残疾政策的进一步完善

Improvement of disability policies

多个残疾防控政策相继出台

A series of disability prevention and control policies have been implemented

2016

**国家残疾预防
行动计划**

**National Disability
Prevention Action
Plan (2016-2020),
2016**

进一步完善我国残疾
预防工作顶层设计
Promoting the top-level
design of disability
prevention in China

2017

**残疾预防和残疾
人康复条例**

**Disability prevention
and rehabilitation
regulations**

发展残疾预防和残
疾人康复事业
Developing disability
prevention and
rehabilitation

2018

**国务院关于建立
残疾儿童康复救
助制度的意见**

**Opinions of the state
council on establishing
the rehabilitation and
assistance system for
disabled children**

完善残疾儿童康复工作
Improving the rehabilitation
for disabled children

北京大学APEC健康
科学研究院被任命为
多项国家残疾政策的
专家指导小组，发挥
重要智库作用

*APEC-PKU HeSAY
was appointed as the
leader of expert
advisor groups for a lot
of disability polices
and also the think tank.*

中国残疾政策的进一步完善

Improvement of disability policies

自2016年起，为落实国家残疾预防行动计划，中国多部门联合试点建立残疾预防综合试验区工作（100个县），覆盖出生缺陷、疾病、伤害、残疾康复、残疾报告制度建设等防治干预领域。

Since 2016, in order to implement the *National Disability Prevention Action Plan*, China has set up *Pilot Project for National Comprehensive Pilots for Disability Prevention (100 counties)*, covering the prevention and intervention on birth defects, diseases, injuries, disability rehabilitation, disability reporting system and other areas.

《国家残疾预防行动计划
(2016-2020)》落实评估

The implement and assessment for
*National Disability Prevention Action
Plan (2016-2020)*

“全国残疾预防综合试验区”
专家技术服务

Expert Technical Services of National
*Comprehensive Pilot Program for
Disability Prevention*

“全国残疾预防综合试验区试点县 (100个试点县)”

Pilot Project for National Comprehensive Pilots for Disability Prevention(100 counties in China)

HeSAY负责建立工作总体设计与督导

APEC-PKU HeSAY is undertaking the overall design and supervision

“四网联动”的服务模式
Four network linkage service mode

目标 Objectives

- 到2020年，产前筛查覆盖率达到80%以上，建立产前筛查诊断网络

By 2020, the coverage rate of prenatal screening will reach more than 80%, and building a network for prenatal screening and diagnosis

-到2020年，0-6岁残疾儿童筛查率达到85%以上，建立儿童残疾筛查诊断机制

By 2020, the screening rate of disabled children aged 0-6 years old will be over 85%, and establishing a mechanism for screening and diagnosing children's disabilities

-提高残疾预防服务利用率和残疾服务满意度

Improving for the utilization rate of disability prevention and the disability service satisfaction

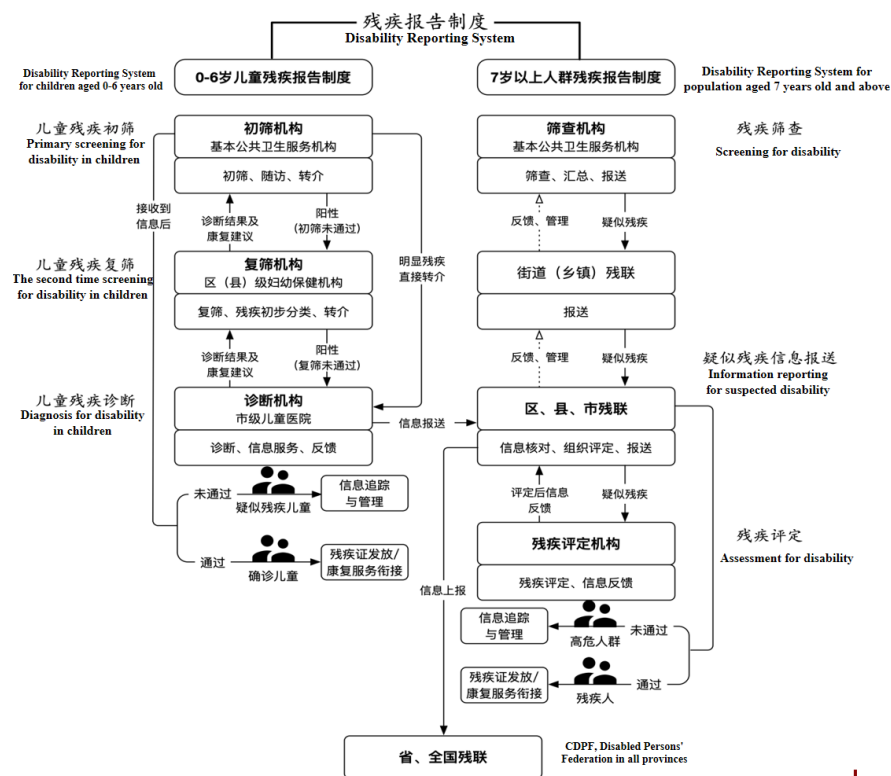

-建立残疾报告制度管理体系，规范残疾信息报告流程

The management system of disability reporting system will be established, and the process of information reporting will be standardized.

中国残疾制度信息化：中国残疾报告制度

Informationization: China's Disability Reporting System

HeSAY率先提出并全面负责
APEC-PKU HeSAY put forward and take full charge of the design

- 形成覆盖全人群残疾报告制度与流程规范
Formed the disability reporting system and process specification covering all population
- 及时、准确、全面掌握试验区残疾发生和致残原因等变化情况
Timely, accurately and comprehensively understanding the changes in disability occurrence and causes of disability in pilot area
- 为完善残疾预防工作提供动态数据支持
Providing dynamic data support for improving disability prevention
- 为智能化、精准化和信息化残疾防控服务体系建设做奠基性贡献
Making a fundamental contribution to the construction of the intelligent, accurate and informationized disability prevention and control service system

中国残疾工作国际化、标准化 Internationalization and standardization

22届APEC领导人会议期间
举办残疾人主题活动

Organized the Disabled-themed Events during
the 22nd APEC Economy Leader's Week

引入WG残疾问卷-中文版
Exporting WG questions
on disability in China

表1 华盛顿工作小组残疾问卷量表 (WGSS) 中文版

导语：为了了解您残疾及生活困难程度，请您回答以下问题。

1. 即使戴眼镜，您看东西也有困难吗？
(1) 没有困难 (2) 有一点困难 (3) 有困难 (4) 完全看不见
